

In yet another example of government over-reach, the federal Justice Department has sued the state of Arizona to overturn its new law cracking down on illegal immigrants. Arizona adopted the law because of federal inaction on the serious problem of illegal immigration in this country.

Please take a moment to read the letter (below) I sent to President Obama asking him to withdraw this lawsuit, and instead work with the Congress to enact tough anti-illegal immigration legislation. We need to secure our borders, enforce existing laws, and make English our official language. And no amnesty for illegals.
